

Enabling Simple, Secure Digital Access

Streamlining passwordless access across delivery models

Maximize security while optimizing user productivity

Facilitate seamless user
access

Protect against internal
and external security
threats

Reduce total cost of
ownership

Modern work is complex Security must adapt.

- Hybrid app delivery is now the norm
- Identity and access are fragmented
- Productivity is at risk

> 80%

Of breaches involve
misuse of credentials

> 60%

Of breaches involve
web apps

Access management must be both simple and secure

Passwordless access to Shared workstations

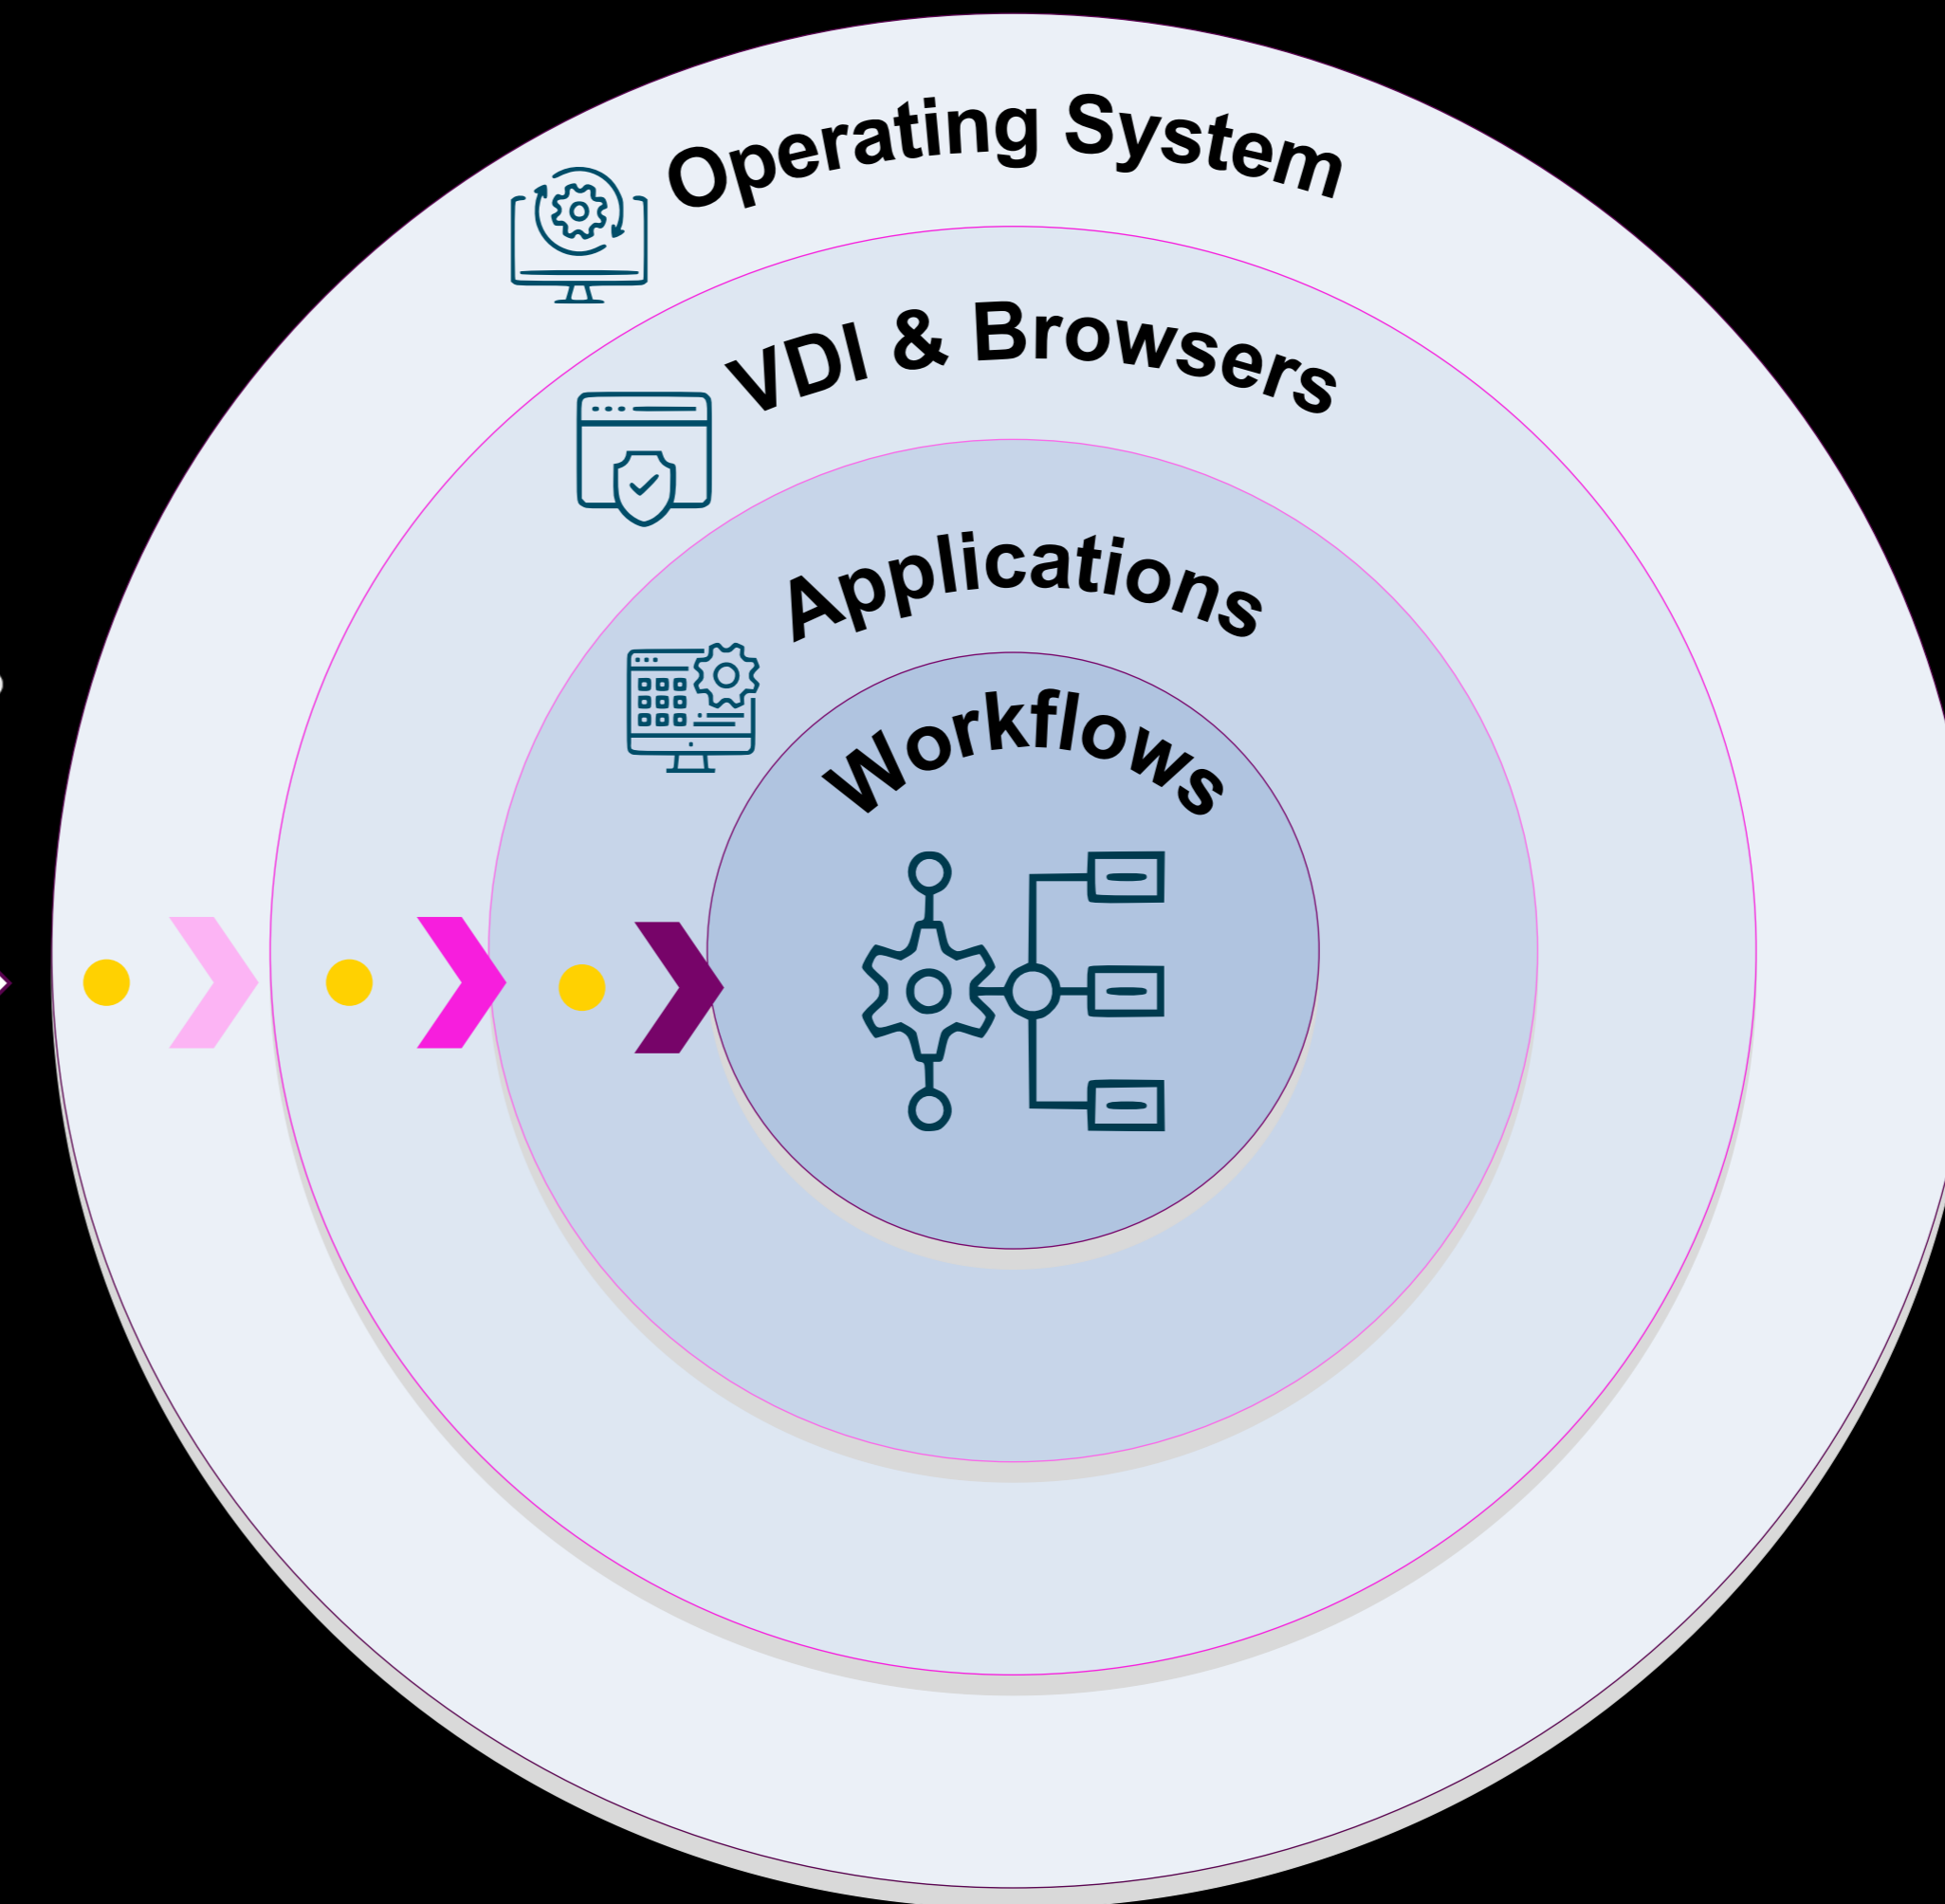

Every User & Any Device

 **imprivata**[®]

Taking four levels of logins and identity to one single badge tap

ANNOUNCEMENT

Integration of endpoint + identity

IGEL + Imprivata

We're extending passwordless access from the endpoint directly into web applications - natively within IGEL OS.

Introducing
Seamless
Web SSO
